

President's Message

I am honored to be serving as the president of York Region Dental Society (YRDS) this 2017/2018 cycle. The upcoming year is full of exciting events, and due to the hard work of the Executive Committee, once again, the membership for the upcoming cycle is **FREE**.

Our first event of the year is on September 28th, 2017 – New Member Mixer. We hope this way we can encourage new members to come out to other events by making them feel more comfortable in a smaller setting. This year we are excited to have some big names speak at the Continuing Education lectures. Our April 6th, 2018 meeting is a full day lecture with Dr. Dennis Tarnow focusing on implants and surgery. Our evening meetings will feature subjects involving CPR, endodontics, as well as pathology. We are also continuing with our three family events (skating, skiing and tennis) hoping to add some fun into the program. However, it is most exciting to be hosting the Holiday party at a new venue, the McMichael Gallery! This year the event will be held on November 25th 2017.

I encourage you to join us in our educational programs as well as our social events. Please visit our website "**YRDS.ca**" for further information and look out for our Eventbrite invites to the events. We welcome all the members to get involved on the Executive and General Council, the highest policy-setting body of the organization.

On behalf of the Executive Committee, we look forward to meeting you personally.

Dr. Edina Heder

President, York Region Dental Society.
